\$50,000 in FY09 Local Funds reflects the Municipality of Anchorage's 50/50 local road bond match if the requested \$50,000 for the project is funded in the FY09 Capital Budget.

Detailed Project Description and Justification:

This project will reconstruct and/or slip line a storm drain system in the area of these streets. Street reconstruction may also be required. Design has been funded with a combination of local road bonds and a state grant totaling \$585,000. This grant, combined with a 50/50 local road bond match will fully fund Phase I Construction. This project is the number one transportation priority for the Russian Jack Community Council.

The maintenance department has identified this drainage system as in need of repair due to deterioration and high ground water. Additionally, the existing system does not adequately handle heavy rains as evidenced by flooding, particularly on 4th Avenue.
